Overview

Pool Safe was a privately held corporation, which was incorporated on October 27, 2011 pursuant to the *Business Corporations Act* (Ontario). Pool Safe was a privately held corporation until April 24, 2017, the date which Pool Safe completed its listing requirements and became publicly trading on the TSX-V.

Pool Safe manufactures and sells a product known as the "PoolSafe". Specifically engineered for its safety benefits, the PoolSafe is a feature rich device that functions as a multi-purpose safe, contains a solar-powered charger for USB compatible devices including phones and tablets as well as a server call-button and a beverage cooler and holders. The service call buttons installed on each PoolSafe alerts service staff to the guest needs. The PoolSafe product is targeted towards the owners and operators of hotels, resorts, waterparks and cruise ships, and is designed to provide their ultimate consumers with security, convenience and guest services.

The Company earns revenues through direct sales of the PoolSafe as well as through a revenue-share partnership where there is no upfront capital cost to the Company's customers. With this, the Company also offers a DBS system, which is a touch screen application installed in the customers' food and beverage area. The touch screen alerts their staff when a guest has pressed the PoolSafe call button. Each PoolSafe is unique, thus enabling the Company's customers to respond directly to their own customer needs. The Company continues to develop its tablet and app product, an application that connects directly to the Point of Sale ("**POS**") system of the resort.

This allows guests to place their own food and beverage orders directly as well as gain access to other amenities offered at the resort location. The application is specific to each PoolSafe unit. The PoolSafe also provides for branding and customization opportunities. Each PoolSafe can be equipped with a branded lift-lid and a media wrap which will enable the Company to generate additional revenue while enhancing brand awareness.

The PoolSafe provides additional revenue streams including product rental fees, increased food and beverage orders as well as optional media advertising. The cost of the product is quickly recovered through these additional revenue stream.

Throughout the 2018 year, Pool Safe has been developing new hardware and software technology which enables two-way communication between the PoolSafe, its data base gateway and the Cloud. As an IoT enabled appliance, the PoolSafe can collect usage information and deposit it into an archive in the Cloud, for later mining and monetization. For the Company's portfolio of current and future revenue share partnerships, the PoolSafe's food and beverage long range, low power, wireless connectivity technology ("LoRa") facilitates a wider service coverage area. Unlike WiFi, which has a 100-foot range, the LoRa technology has a range of up to 1.2 kilometres, is embedded with the PoolSafe solutions, and does not require the property to add or make changes to their current infrastructure. The Company will continue to add new services to its already feature rich design.

During the three-month period ended September 30, 2018, the Company raised $395,011 via a private placement of 5,643,020 units. Each unit consists of one common share and one-half of one common share purchase warrant. This facility enables the Company to access its working capital needs in a manner that is very shareholder friendly. No longer constrained by access to working capital, management will be able to actively move forward to conclude numerous revenue sharing opportunities with hotels, resorts and water parks around the world. The Company made draws of $272,800 against this facility in the June 2019 quarter.

Announced that it had signed three Florida based outdoor waterparks to three-year revenue share partnerships, for a total deployment of 83 PoolSafe units. The net loss for the three-month period ended December 31, 2019 was $187,910 (December 31, 2018 - $203,631). Sales and gross margins in Q4 2019 reflect a lack of capital to place units into service. Operating costs were similar in the two periods.

The reduction in professional fees resulted from costs reassigned to SGA. However, lease costs, previously in SGA, reported as depreciation in Q4 2019. Stock-based compensation was lower as there were no grants in 2019. Higher interest costs reflects increased debt.

Years ended December 31, 2019 and December 31, 2018

The net loss for the year ended December 31, 2019 was $714,514 (December 31, 2018 - $996,536). Sales in 2019 increased with more higher margin revenue share placements. Sales and margins in the later part of 2019 were negatively affected by a lack of invested capital. The Company has experienced an increased interest from a number of potential customers for revenue share units for the 2020 year.

Pool Safe continues to see greater interest from the hotel, resort and waterpark customers as represented in the sales growth, quarter over quarter. The Company expects to grow its sales force through establishing additional distribution relationships within the hospitality industry. This will likely enable the Company to more effectively penetrate the global marketplace.

Expenses in 2018 were reduced from 2017. The following table sets forth a summary of the Company's operating expenses by category for the years:

	Year Ended Dec. 31, 2018	Year Ended Dec. 31, 2018

The negative working capital at December 31, 2019 was mostly created by the convertible debentures, which mature within the next twelve months. While Management believes that the combination of debenture financings, and financing arrangement for future product sales leaves the Company with sufficient funds to meet its obligations and short-term working capital requirements, and to accomplish its short-term plans, the Company plans to continue to monitor closely its use of its available cash.

The Company may require substantial additional capital to fund additional growth in the business.

In the year ended December 31, 2019, trade payables and accruals increased with normal business. Deferred revenue represents advances on units to be shipped in the following quarter. Capital lease obligations incurred in 2018 were eliminated with the termination of the lease agreement in the second quarter of 2019. However, the Company entered into a lease for its premises which resulted in new lease obligations. Debt increased with draws against the revolver credit facility and new loans. The current portion reflects the convertible debt, loans and promissory notes payable in the next twelve months. Interest expense reflects accretion of the equity portion of the debenture and of warrants issued as a cost of debt, which reports as interest expense.

In 2018, cash was used to reduce trade payables and other liabilities. Also, shares were issued to satisfy $19,080 of liabilities. Other trade payable and accrual activity was normal course business. Debt repayments of $31,857 were made in 2018 as the balance of the loan was repaid. The Company entered a lease transaction in the amount of $78,000 during May 2018. Lease repayments of $11,290 were made in the period. This lease agreement was terminated in 2019. Long term debt increased as the Company issued a $460,000 principal amount of unsecured convertible promissory notes (the "Notes") in tranches of $300,000, $125,000, and $35,000. The Notes will bear interest at a rate of 10% per annum, calculated annually, paid out quarterly in arrears. The Notes are convertible into equity of the Company as described in the Recent Events section. The securities issued in connection with the loan are subject to a statutory four month hold period from the date of issuance. The proceeds of the Financing will be used for general working capital purposes.

The debentures are classified as a liability, with the exception of the portion relating to the conversion feature, which is valued and classified as equity. The equity portion of these debts totals $30,300. The equity amount and costs of the issuances result in the carrying value of the debenture being less than face value. The discount is being accreted over the term of the debentures utilizing the effective interest rate method at a 22.2% discount rate. An amount of $74,364 was recorded as accretion interest expense on the consolidated statements of loss and comprehensive loss for the year ended December 31, 2019 (2018 - $30,195).

The Company is well positioned to capitalize on market opportunities and to meet increased competition through its experienced management and staff, coupled with its substantial capital and borrowing capacity. We continue to look for opportunities to introduce new product development.

The Company's operations could be significantly adversely affected by the effects of a widespread global outbreak of a contagious disease, including the recent outbreak of respiratory illness caused by COVID-19. The Company cannot accurately predict the impact COVID-19 will have on its operations and the ability of others to meet their obligations with the Company, including uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected countries. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could further affect the Company's operations and ability to finance its operations.

Cautionary Note Regarding Forward-Looking Statements

This MD&A contains certain "forward-looking information" as defined in applicable securities laws (collectively referred to herein as "**forward-looking statements**"). These statements relate to future events or the Company's future performance. All statements other than statements of historical fact are forward-looking statements. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "budgeted", "scheduled", "estimates", "continues", "forecasts", "projects", "predicts", "intends", "anticipates" or "believes", or variations of, or the negatives of, such words and phrases, or statements that certain actions, events or results "may", "could", "would", "should", "might" or "will" be taken, occur or be achieved. The forward-looking statements in this MD&A speak only as of the date of this MD&A or the date specified in such statements.

Forward-looking statements are based upon certain assumptions and other important factors regarding present and future business strategies and the environment in which the Company will operate in the future, which could prove to be significantly incorrect. Forward-looking statements are inherently subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company and/or its subsidiary to be materially different from those expressed or implied by such forward-looking statements.

Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this MD&A. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance or achievements to be materially different from any of its future results, performance or achievements expressed or implied by forward-looking statements. All forward-looking statements herein are qualified by this cautionary note. Accordingly, readers should not place undue reliance on forward looking statements. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking statements whether as a result of new information or future events or otherwise, except as may be required by law. If the Company does update one or more forward-looking statements, no inference should be drawn that it will make additional updates with respect to those or other forward-looking statements, unless required by law.

This MD&A contains forward-looking statements with respect to Pool Safe under the headings “Business Update”, “Liquidity”, and “Outlook”. These forward-looking statements, by their nature, involve risks and uncertainties that could cause actual results to differ materially from those contemplated by such statements, in particular, present financial market uncertainty. The Company has assumed that financing alternatives remain available, albeit with terms that are not as attractive as was the case prior to the current worldwide financial market uncertainty. The Company considers the assumptions on which these forward-looking statements are based to be reasonable at the time that they were prepared, but cautions the reader that these assumptions regarding future events, many of which are beyond the control of management, may ultimately prove to be incorrect. Except as required by law, the Company does not intend, and assumes no obligation, to update the forward-looking statements contained herein.
